

C-1500N STAR SYSTEM

7, 15, 30 GALLON

Heavy Duty 0.30" wall

Features:

- Extra heavy 0.30" thick wall polyethylene with UV inhibitors.
- Ships complete with the C-1500N pump model of your choice.
- 3 tank capacities to choose from: 7, 15, and 30 gallons.
- Molded-in threaded inserts and raised shelf for sturdy pump mounting.
- Lid positions include open, closed and vent.
- All necessary accessories are included.
- Convenient space saving rectangular shape.
- Raised off the floor for easy wash down.

Specifications:

Material:LLDPE
Capacity:7, 15, or 30 U.S. Gallons
Max. fluid temperature:130° F (54° C)
Max. ambient temperature: ..14° to 110° F/ -10° to 43° C
Approximate shipping wt: ...(includes C-1500N pump)
7 gallon units = 19 lb. (8.6 kg)
15 gallon units = 28 lb. (12.7 kg)
30 gallon units = 36 lb. (16.3 kg)

Materials of Construction:

Tank system only:

Tank:Natural Polyethylene (LLDPE)

Suction Strainer assembly:

Tubing:Clear PVC
Weight:Ceramic
Footvalve adapter & body: PVDF
Strainer screen:Polypropylene
Check Ball:Ceramic
Spring:Hastelloy C-276
Ball Seat O-ring:TFE/P (optional EP)
Static Seal O-ring:Viton[®] (optional EP)Natural
Lid:Polypropylene
Lid fasteners:Polypropylene
